

## D-PRIME FINGERJOINT PINE S4S

"D" Prime Pine products are perfect for a smooth finish material often used for base trim, casing, ceiling & wall paneling and cabinets. Disdero Lumber stocks 16' primed finger-jointed S4S boards in many sizes accompanied by a reversible T&G paneling for two decorative options. Our primed Pine is manufactured from a combination of clear Radiata & Ponderosa Pine using a water based primer and a superior NAFtype 1 exterior adhesive.
